## Basic information

Avalon is a mode for Diablo II Lord of Destruction version 1.10 (without Czech). The philosophy of fashion is to make Diablo more agile, more lively, more fun for old and new players, without destroying the original principles of the game. He just has to bring Diablo to life. At Avalon, the emphasis is on teamwork. The author of the fashion is Grammator.

Drink / destroy all Full Rejuvenation Potions before installing the mode. If you do not do this, the character will not load (GOD protection). Installation is simple, just delete the Patch\_D2.mpq file and the \* .dll files in the Diablo directory.

The main attraction of Avalon will probably be objects and Uberlevels, so we will move on to a detailed description of all changes...

## Shopping

You can buy gems from Akara and runes from Gheeda (El to Thul quality), Rejuvenation and Full Rejuvenation Potions can be bought from Malah.

## Monstra

Some monsters have changed, all monsters have been raised (partly due to experience), so they are harder to kill. A few immunities, a few skills and a lot of new monsters and bosses have been added for the purpose of uber levels and bosses.

## Experience

Experience has been increased fivefold. The maximum achievable level is 110.

## Mercenaries

The mercenaries have been greatly improved, we will take them one by one.

### Rogue Scout

- 95 maximum resist
- 2 × more resist

They got a massive bonus on elemental damage (20% lvl), a chance to pierce and have more base physic damage.

### Desert Mercenary

- +100 hp/lvl
- +45 def/lvl
- +80 AR/lvl

New skills:

- Fanaticism (Hell – Offensive)
- Salvation (Hell – Defensive)
- Conviction (Hell – Combat)

They have higher base damage, higher run / walk speed.

### Easter Sorcerer

- 95 maximum resist
- 2 × more resist
- +50 hp/lvl

New skills:

- Blizzard (cold)
- Meteor (fire)
- Chain Lightning (lightning)

They received a massive bonus to elemental damage (50% / lvl).

Rejuvenation

**Barbarian**

95 maximum resist

2 × more resist

+125 hp/lvl

+75 def/lvl

+110 AR/lvl

New skills:

Berserk

They have higher base damage and a chance of a crushing blow.

**Skilly**

There are over 70 new skills in Avalon, although many are unused. Almost all skills have been improved, at least they have higher damage.

**Editing Skills**

All skills except aur can be used on the left mouse button. Most of Amazon's skills don't take away javelins and arrows. FoH and hydra have a lower casting delay, skills are more available (there are a lot of items with warcries, teleports, etc.). Minions are stronger, more can be summoned, all golems at once, bears and wolves at once, poison spinner is more, corpse explosion has a higher radius, blade fury shoots more often, pierces works on it, gives more% damage and so on and so on. No new skills have been added to the characters, but they can use skills on uber items and some unique ones.

**New auras****Super Conviction**

How to get: Black Round, Bartuc's Set, Daisy Cutter

Reduces enemy fire, lightning, cold, poison and magic resist by 150% and physic by 50% up to a distance of 8y. Works with Conviction.

**Apocalypse**

How to obtain: Grammator's Revenge, Krogoth's Horn

It regularly deals 60000 magic damage to all enemies up to a distance of 6.5y, which for all ordinary monsters = death. You can also beat the Gold Golem with it.

**Light aura**

How to obtain: The Emperor

Adds + 150% damage to undead and 20,000 magic damage to your attack.

**Boost aura**

How to obtain: Mark of the Krogoth

Accelerates movement and attack + 300% and adds + 1000% damage to a distance of 10y. Great for minions.

**Evensong aura**

How to obtain: The Hannival

It adds massive regeneration of life and mana, it's about 1500-2000 hp / s, depending on how many you have.

More new skills

**Hoarfrost**

How to obtain: Behemoth's Claw

Exactly the same as Baal's, it doesn't do much damage, but it pushes away and freezes for a long time.

**Hell Ball**

How to obtain: Buster

Very fast fireball, deals 20,000 fire damage.

**Death Curse**

How to obtain: Leah's Skull, Tharr's Visor

Curse, which reduces physic resist by 120% and adds 150% life steal (it's actually Amplify damage + Life tap so that the curse still doesn't overcharge).

**New immolation**

How to obtain: Mark of the Krogoth

Such a small atomic bomb, sends a circle of very fast fireballs with 2000-3000 physics and 15000 fire damage, extremely effective at close range, when the enemy buys a few hits.

**Spectral Bolt**

How to obtain: Avalon Guard

Fastest bow attack with magic damage 25000

faster bone spirit with magic damage 25000.

Enlightenment

How to obtain: Administrator  
Converts an enemy for three minutes. Unfortunately, most uber monsters cannot be converted.

Skilly monster

Monsters have Super Conviction, Krogoth has Apocalypse (damage only 35000, for that higher radius). I won't write all the skills (Dark Rangers have their own cold arrow, etc.), only the ones that are worth it.

Harrier Blast

Used by: Harrier, Aron, Patron, Dark Sentry  
A shorter but far stronger version of Red Lightning Hose from Diablo, able to sweep even good characters with one blow.

Glacial Nova

Used by: Golden Queen  
The circle of ice energy, which does not hurt, just pushes away.

Death Nova

Used by: Golden Queen, White Sister  
A circle of destructive ice energy. It deals massive cold and physic damage, especially effective at close range when you grab a few bolts.

New immolation

Used by: Black Sister, Devil, Keeper  
New fast fireballs with massive fire and physic damage, especially effective at close range when you catch a few hits.

Burning Hell

Used by: Dread Lord, Devil  
A column of fire with a large radius, massive fire and physic damage, ideal for summons and will easily kill even those who are trying to stand nearby.

Lightning Nova

Used by: Storm Bat  
Newly charged bolts with great damage.

Drop

The drop has undergone a lot of big changes, overall it is much increased mainly drop Unique and Set Items, Unique always falls from the act of bosses, in time you will find some bosses and locations with a very specific drop. Some Uniques can only fall in uber levels.
